RESPONSE TO RESTRICTION REQUIREMENT

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

In response to the Office communication mailed May 6, 2003, and in supplement to Applicants' December 30, 2002 response to the Office Communication mailed December 12, 2002, Applicants reply as follows.

Claims 1-11, 13-21, 86-98, and 101-107 are pending in the application. In the Office communication, the Examiner identified two inventions: Group I (claims 1-11, 13-21, 101 and 103-106), drawn to pH dependent ion exchanges matrices, and Group II (claims 86-98, 102, and 107), drawn to a methods of making a pH dependent ion exchange matrix.

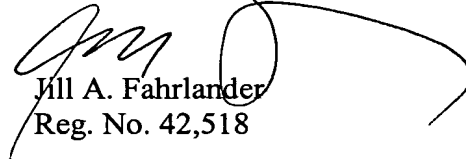

Applicants elect the Group I claims 1-11, 13-21, 101, and 103-106 with traverse.

Applicants respectfully submit that all claims of the present application could be examined together without placing any serious burden on the United States Patent and Trademark Office. The claims of Groups I and II are so closely related to one another that, for efficiency, they should be examined in a single application.

For reasons stated above, Applicants respectfully submit that restriction of examination to one of the two groups of claims set forth in the Office Action would be improper under 35 U.S.C. §121. In view of the above, Applicants respectfully request reconsideration and withdrawal of the restriction requirement.

No fee is believed due in connection with this submission. Should a fee be owing, please charge such fee to Deposit Account No. 50-0842.

Respectfully submitted,

Jill A. Fahrlander
